CAREER OBJECTIVE

With over 3 years of experience developing websites with WordPress, WooCommerce and Next.js, I bring strengths in SEO, performance optimization and VPS deployment. I aim to deepen my expertise, contribute to high-quality web projects and deliver practical value for businesses. As a Tech Lead, I strive to build stable web systems that provide a great user experience and are optimized for search engines.

EDUCATION

2022 – 2026 **University of Technology and Education — The University of Danang**
Major: Information Technology

RESEARCH PROJECTS

2024 – 2025 **Remote health-monitoring wheelchair**

- Participated in research and development of a wheelchair with remote health-monitoring capabilities.
- Supported software development and data connectivity to track health indicators.

2023 – 2024 **Rehabilitation glove for people recovering from mild strokes**

- Participated in research and development of a glove to support rehabilitation after mild strokes.
- Supported development of control software and sensor data collection.

WORK EXPERIENCE

2022 – Present **Webtop Website Design Co., Ltd.**
Tech Lead (WordPress Developer)

- Develop, customize and optimize WordPress and WooCommerce websites for business and e-commerce projects.
- Build interfaces and integrate features with Next.js, Tailwind CSS and TypeScript.
- Configure and manage VPS infrastructure to deploy the company's website template system.
- Configure hosting, DNS and SSL, and deploy websites to production environments.
- Optimize website performance, loading speed and user experience.
- Implement comprehensive SEO, including Google Search Console, Google Analytics 4 and Google Tag Manager configuration.
- Manage code, deploy projects and support the development team.
- Completed 10+ client websites across different industries.
